

Based in Munich, The Mobility House is a young and dynamic start up company facing the challenges of the future mobility. With our customer tailored solutions we serve as enabler for the Energiewende and pursue a CO₂ free world of mobility and power generation. To support our product management team providing the basis for this vision we are searching for a dedicated

Product Management Intern *in the field of electric mobility at our headquarter in Munich*

Your Challenges:

- Scout, design and develop new products and service solutions in the field of electric mobility
- Analyze and monitor market development and competitive environment
- Create and maintain cooperations with suppliers and business partners
- Support to develop our future product strategy

Your Knowhow:

- „Getting things done“ – attitude
- Sales focus and natural interest in „How to find the best solution for our customer“
- Team player, flexible and communicative
- Profound knowledge in MS Office
- Fluent German and English
- Advanced Bachelor or Master in business management or similar

Reasons to work at The Mobility House:

- A vibrant start-up environment with flat hierarchies
- Steep learning curve through exciting projects with personal responsibilities and the chance to implement your own ideas
- Unique opportunity to experience the growth of a new, fast growing and promising industry
- Highly motivated and professional team
- Nice and cozy office including everything you need to focus on your tasks
